

# Under Wraps

## Packaging Materials, Their History, Efficacy and Creating Packaging Material Inspection Protocols

### CE Education Program

Pure Processing has developed a complete educational session on the evaluation and implementation of stronger central sterile wrap inspection practices. Follow along with the steps below to participate in the full educational program and earn CE credits.

#### STEP 1

Go to <http://pure-processing.com/resources/wrap-inspection/> to access the full length session video, the Departmental Checklist Hand-Out, and a copy of our PowerPoint presentation.

#### STEP 2

Watch the full video session to answer the following educational objectives:

1. Learn how to choose central sterile wrap materials
2. Understand the methods for inspecting sterile wrap materials
3. Learn the questions to ask so you can analyze your current procedures and make action plans

#### STEP 3

Take a tour of your sterile processing department, and follow along with the **Departmental Checklist** as part of the educational package, to specifically identify areas for improving your central sterile wrap inspection procedures.

#### STEP 4

Submit an email to our Education Desk at [sastkutzbach@pure-processing.com](mailto:sastkutzbach@pure-processing.com) to receive certificates of completion to submit for CE credits.
