PURE PROCESSING HIRES NEW CFO

Carrie Pasinski will lead finance strategy through evolving global economic conditions

CAROL STREAM, IL; Tuesday, August 11, 2020 — Pure Processing LLC, developer and provider of pre-cleaning stations, technologies and accessories for healthcare reprocessing departments, announces the appointment of Carrie Pasinski, an experienced finance and operations leader, as chief financial officer for the company.

“The challenges of this historic COVID-19 era have reinforced the need for strong financial leadership,” said Dan Gusanders, founder and CEO of Pure Processing. “We are pleased to welcome an experienced finance innovator to steer us through the coronavirus economy and beyond. With surgeries and procedures quickly re-escalating, Carrie Pasinski’s expertise will help us achieve the financial flexibility to address the current and future needs of our instrument reprocessing customers.”

“Pure Processing has grown at a remarkable pace during the last year because of its ability to contribute to major capital hospital projects and provide cost-effective productivity enablers,” said Pasinski. “The company is adapting well to external changes such as the COVID-19 pandemic by pivoting to new opportunities such as the IAHCMM 2020 virtual conference. Not only did they participate in this event, but they launched new products that help their customers enhance productivity, ergonomics and regulatory compliance. I look forward to contributing to the company’s ongoing growth by working within our customers’ financial imperatives to help them achieve their clinical capacity goals.”

Carrie Pasinski has acquired nearly three decades of experience in finance and operational management. She has led a wide range of finance functions, including accounting, asset management, forecasting, due diligence and legal processes, internal audits, business process reengineering, e-commerce, and web-based asset

management programs and platforms. She also brings experience in operational functions such as recruitment, instruction/training, customer service and relationship management, and contract management and negotiation. Carrie holds a BBA in accounting from Loyola University, Chicago, IL, and is a certified public accountant.

About Pure Processing

Pure Processing designs, develops and manufactures ergonomic solutions for easy, fast, safe and effective medical device pre-cleaning. The company helps surgical and reprocessing departments protect their most important assets: their staffs and their instrumentation. By applying a thorough understanding of ergonomics and the instrument cleaning environment, Pure Processing professionals help healthcare providers achieve greater clinical value for their patients by enabling optimal pre-cleaning processes, efficiency and quality. For more information, please visit www.pure-processing.com or contact Pure Processing at 877-718-6868.
